Re: Confirmation of invitation to attend the 2020 WFCP Congress

To Whom It May Concern:

This letter is to confirm that Professor Marcelo Bregagnoli, Rector of Federal Institute South of Minas Gerais (IFSI de Minas), is invited to attend the World Federation of Colleges and Polytechnics 2020 Congress. We would be delighted if Professor Marcelo Bregagnoli, who has experience in organizing the Brazilian Agriculture Skills competition, shares his knowledge and expertise at the Congress. The WFCP Congress will be held under the theme *VET Excellence – For All* from October 14 – 16, 2020, in Donostia-San Sebastián, the Basque Country (Spain).

The World Federation of Colleges and Polytechnics (WFCP) organizes a world congress bi-annually. The international gathering attracts large numbers of experts and professionals in the field of professional and technical education and training from all continents. The 2020 Congress will highlight the trends in professional and technical education and training (PTET) from across the world, and the Leadership Institute workshop and Young Leaders Retreat will be again in the Congress program.

The World Federation of Colleges and Polytechnics (WFCP) is a member-based international network of colleges, polytechnics, university colleges, universities of applied sciences, institutions and individuals of professional and technical education and training. The Federation provides leadership in delivering workforce education for the global economy.

We are confident that the Congress will provide Professor Bregagnoli with the latest information on issues of significance for professional and technical education which he will be able to share with his and other Federal Institutes.

For any further queries, feel free to write to me or give me a call.

Best Regards,
Craig Robertson
