2 - Campus Machado

<http://www.mch.ifsuldeminas.edu.br/noticias/138-2016-01-04-10-40-32/3379-2016-08-31-19-06-20>

3 - Campus Muzambinho - Laboratory of Bromatology and Water

Description:

1 - Part of the lamps was discarded by the Inconfidentes Campus and others for collection in the commercial establishments of the city.

2 - The Machado campus developed a process of hiring a specialized company, as well as the follow-up of the action, so that the waste treatment was done in the institution itself. Thus, it performed in an environmentally correct way the disposal of 3,370 fluorescent lamps of varied models.

In order to dispose of the lamps, IFSULDEMINAS has priority for hiring a specialized company. In the Rectory and other campuses are made the storage of these lamps for the disposal of more quantity, because in smaller quantities the amount paid for disposal is higher.

3 - There is a place of accommodation for toxic waste where IFSULDEMINAS teams generate daily efforts to perform the correct disposal at specialized companies.
