Description

Mantiqueira Conservative Plan and Water Conservative Plan

Through a partnership between the Institute, the City Council of Extrema, the Research Support Foundation, the International Union for Conservation of Nature, The Nature Conservancy (TNC), the World Resource Institute (WRI), the SOS Mata Foundation Atlântica and the National Water Agency, the eight IFSULDEMINAS campuses became nuclei of the project with the objective of guiding and guiding the actions in their areas of coverage.

The main objective of the Mantiqueira Conservancy Plan (PCM) is to promote forest restoration of native species in about 1,200,000 hectares in the area of influence of the Serra da Mantiqueira in the more than 280 municipalities of the States of Minas Gerais, São Paulo and Rio de Janeiro of January, using the expertise of the municipality of Extrema in the implementation of the Conservative Water Project, the first Brazilian experience of forest restoration project using the PSA mechanism, as well as support for the implementation of the Atlantic Forest Municipal Plan (PMMA).

1 - Campus Poços de Caldas holds the first meeting of the Mantiqueira Conservative Plan

IFSULDEMINAS - Poços de Caldas Campus, in partnership with the Environment Secretariat of Extrema, is executing the Mantiqueira Conservative project, which is an expansion plan for the Conservative Water Project, held in Extrema. The project is 10 years old and was awarded internationally, being a reference for all of Brazil, having support from several national and international institutions.
