Barrels used for the selective collection of the Rectory

Project Rectory's to utilization coffee grounds for compost in Campus Inconfidentes.

Campus Machado – Seletive Collect

Campus Inconfidentes – Seletive Collect

Campus Muzambinho – Seletive Collect

Selective collection point of 5m². Weekly selective collection materials are removed by the city's Recyclers Association. The materials come from the users of the Rectory building and the residences of collaborators.

Description:

The selective collection in IFSULDEMINAS takes place in each campus that has a local selective collection commission that aims to help the academic community to fulfill its social and environmental responsibility, in accordance with the norms indicated in Federal Decree No. 5.940 / 2006. The committee articulates with the associations and cooperatives of recyclable materials collectors, develops technical cooperation terms, implements collectors and mobilizes the academic community to carry out proper waste disposal. Through this action the Institution collaborates with the generation of income for the cooperatives, in total, there are six associations that receive the recyclable materials generated by IFSULDEMINAS: Jacutinga Recycling Production Cooperative; Machadense Association for the Recycling of Solid Waste ; Organization Center for Recyclers of the Southwest Mining; Cooperative of recyclable materials workers of Poços de Caldas - Recycling Action ; Association of Collectors of Recyclable Material of Pouso Alegre ; Association of Collectors of Recyclable Material of Three Hearts (ASCAMT).
