Figure 8: Campi Carmo de Minas and Três Corações taps.

Figure 9: Muzambinho Campus micro sprinklers irrigation.

Figure 10: Rectory toilet water box flush with double drive.

Description

IFSULDEMINAS campi have various types of water-efficient installations and appliances, avoiding waste. Time delay water taps are present in most toilets and bathrooms, as well as water box flushes with double drive. Campus Pouso Alegre put cable ties on taps (Figure 7), which reduces water consumption by almost 70%. Plantation irrigation systems are also present with drip and micro sprinklers (figures 4, 5 and 9). Source: IFSULDEMINAS.
